

JOSHUA NEHOHWA

GRADUATE FULL-STACK SOFTWARE DEVELOPER

Cape Town, South Africa | Open to relocate to Ireland | nehohwajoshua@gmail.com | +27 63 857 3965
linkedin.com/in/joshua-nehohwa-b4b97b229 | github.com/jnehohwa

PROFILE

Software Engineering student and junior full-stack developer with hands-on experience building web platforms, data-backed workflows, and operational automations using React, Next.js, TypeScript, PHP/MySQL, Supabase, WordPress, and AWS services. Achieved an 86% academic average, led a university developer community, delivered a public website and privacy-conscious intake workflow during a recent internship, and currently tutors first-year IT students. Expected to graduate in November 2026 and open to graduate or junior software roles across Ireland.

TECHNICAL SKILLS

Core development: TypeScript, JavaScript, React, Next.js, Node.js, HTML, CSS, Python, PHP, Java

Data and platforms: PostgreSQL, MySQL, Supabase, Clerk Auth, WordPress, Elementor, Airtable, Jotform

Cloud and delivery: AWS EC2, S3, IAM and Lambda; Git, Linux, Docker fundamentals, Make.com, Google Apps Script

EDUCATION

BSc Information Technology (Software Engineering) | Eduvos, Cape Town | Expected Nov 2026

Academic average: 86% | Relevant study: data structures and algorithms, software architecture, mobile development, network security, cloud technologies, mathematics, and AI ethics.

EXPERIENCE

Digital Systems and Web Development Intern | Nature's Valley Trust / KuCoNa | Jun-Aug 2026

- Built and launched a responsive WordPress/Elementor website spanning three programme hubs, 15+ public pages, registration pathways, and a 14-partner directory.
- Designed a privacy-conscious workflow linking WordPress, Jotform, Make.com, and Airtable for youth registration, integration logging, attendance support, and duplicate prevention.
- Cleaned 1,037 demonstration records while preserving the production Airtable schema and integrations.
- Developed a 47-question bilingual community survey with Google Forms, Apps Script, and linked Sheets analytics, then produced handover documentation and staff training resources.

ITMTA1-B22 Tutor | Eduvos | May 2026-Present

- Lead weekly two-hour Microsoft Teams tutorials, support exam logistics, coordinate availability with staff, and track allocated tutoring hours for first-year IT students.

Freelance AI Data Specialist | Data Annotations AI | Remote | Jan-Nov 2024

- Improved large-language-model training data by transforming raw HTML and text into high-quality annotations and evaluating responses against complex, evolving guidelines.
- Documented edge cases and actionable quality feedback while meeting independent quality and throughput requirements on Google and Microsoft contract work.

Lift Attendant | Snowshoe Mountain | West Virginia, USA | 2024-2026

- Managed guest safety and lift operations in high-pressure winter conditions and received multiple top-performer recognitions for reliability and service.

SELECTED PROJECTS AND LEADERSHIP

Innosimm ERP System | Developer | 2025-Present

- Designing a modular Next.js, Supabase, and Clerk system for inventory, sales, purchasing, quotations, invoices, and finance tracking for a vehicle and tyre business.
- Modeling stock movement and document workflows to replace fragmented spreadsheet and WhatsApp processes with a maintainable data-backed system.

HackJam Innovation Platform | Team Leader | 2025

- Led a team building a React, Next.js, TypeScript, and Tailwind platform for idea submission, voting, mentor feedback, and gamification; placed 4th university-wide.
- Coordinated user research, prototyping, technical prioritisation, and the final product pitch across the project team.

KasiSwap Marketplace | Developer | 2026

- Built React/TypeScript and PHP/MySQL marketplace flows covering listings, authentication-aware actions, order states, messaging, disputes, reviews, and admin moderation.
- Produced deployment notes, code evidence, and structured technical documentation for assessment and maintainability.

Chairperson | Vossie DevClub | 2025-Present

- Lead technical workshops, student developer activities, mentorship initiatives, hackathons, and programming outreach for high-school learners.
- Coordinate student-focused activities and communicate technical concepts to audiences with different levels of experience.

CERTIFICATIONS AND ACHIEVEMENTS

- AWS Certified Cloud Practitioner and AWS Certified Solutions Architect - Associate
- Golden Key International Honour Society | Top 15% of university cohort, 2025
- IELTS Academic: 8.5 overall / CEFR C2 (Listening 8.5, Reading 9.0, Writing 6.5, Speaking 9.0)
